Dear Board Members,

Pease allow me to express my thanks on behalf of my research laboratory members and the Jan and Dan Duncan Neurological Research Institute at Texas Children's Hospital for the generous donation from the Aicardi Syndrome Foundation. My laboratory members and myself continue to be very committed to our research program on Aicardi Syndrome.

The financial support of the Aicardi Syndrome Foundation with the backing of all the families and their friends to our work are of tremendous value to us. I cannot begin to fully express how much we are grateful.

We will keep you up to date on our progress and I am looking forward to seeing all of you again at the family conference in Chicago this July.

With sincere thanks and warmest regards,

Ignatia B. Van den Veyver, M.D.
